Informed Consent

We encourage and support a **shared decision-making process** between us regarding your health needs. As a part of that process you have a right to be informed about the condition of your health and the recommended care and treatment to be provided to you so that you can make the decision whether or not to undergo such care with full knowledge of the known risks. This information is intended to make you better informed in order that you can knowledgeably give or withhold your consent.

Chiropractic is based on the science which concerns itself with the relationship between structures (primarily the spine) and function (primarily of the nervous system) and how this relationship can affect the restoration and preservation of health.

Adjustments are made by chiropractors in order to correct or reduce spinal and extremity joint subluxations. **Vertebral subluxation** is a disturbance to the nervous system and is a condition where one or more vertebra in the spine is misaligned and/or does not move properly causing interference and/or irritation to the nervous system. The primary goal in chiropractic care is the removal and/or reduction of nerve interference caused by vertebral subluxation.

A chiropractic examination will be performed which may include spinal and physical examination, orthopedic and neurological testing, palpation, specialized instrumentation, radiological examination (x-rays), and laboratory testing.

The chiropractic adjustment is the application of a precise movement and/or force into the spine in order to reduce or correct vertebral subluxation(s). There are many different methods or techniques by which the chiropractic adjustment is delivered but are typically delivered by hand. Some may require the use of an instrument or other specialized equipment. In addition, physiotherapy or rehabilitative procedures may be included in the management protocol. Among other things, chiropractic care may reduce pain, increase mobility and improve quality of life.

In addition to the benefits of chiropractic care and treatment, one should also be aware of the existence of some risks and limitations of this care. The risks are seldom high enough to contraindicate care and all health care procedures have some risk associated with them.

Risks associated with some chiropractic treatment may include soreness, musculoskeletal sprain/strain, and fracture. Risks associated with physiotherapy may include the preceding as well as allergic reaction and muscle and/or joint pain. In addition, there are reported cases of stroke associated with visits to medical doctors

and chiropractors. Research and scientific evidence does not establish a cause and effect relationship between chiropractic treatment and the occurrence of stroke; rather, recent studies indicate that patients may be consulting medical doctors and chiropractors when they are in the early stages of a stroke. In essence, there is a stroke already in process. However, you are being informed of this reported association because a stroke may cause serious neurological impairment.

I have been informed of the nature and purpose of chiropractic care, the possible consequences of care, and the risks of care, including the risk that the care may not accomplish the desired objective. Reasonable alternative treatments have been explained, including the risks, consequences and probable effectiveness of each. I have been advised of the possible consequences if no care is received. I acknowledge that no guarantees have been made to me concerning the results of the care and treatment.

I HAVE READ THE ABOVE PARAGRAPH. I UNDERSTAND THE INFORMATION PROVIDED. ALL QUESTIONS I HAVE ABOUT THIS INFORMATION HAVE BEEN ANSWERED TO MY SATISFACTION.

HAVING THIS KNOWLEDGE, I KNOWINGLY AUTHORIZE Dr. Jonathan T. Currier of LifeSpine Health Enhancement Center TO PROCEED WITH CHIROPRACTIC CARE AND TREATMENT.

THIS NOTICE DESCRIBES HOW CHIROPRACTIC AND MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

In the course of your care as a patient at the office of Dr. J. Currier D.C., M.S. we may use or disclose personal and health related information about you in the following ways:

- *Your personal health information, including of your clinical records, may be disclosed to another health care provider or hospital if it is necessary to refer you for further diagnosis, assessment or treatment.
- *Your health care records as well as your billing records may be disclosed to another party, such as an insurance carrier, and HMO, a PPO, or your employer, if they are or may be responsible for the payment of your services.
- *Your name, address, phone number, and your health care records may be used to contact you regarding appointment reminders, information about alternatives to your present care, or other health related information that may be of interest to you.

If you are not at home to receive an appointment reminder, a message may be left on your answering machine. You also have the right to refuse to provide authorization for this office to contact you regarding these matters. If you do not provide us with this authorization it will not affect the care provided to you or the reimbursement avenues associated with your care.

Under federal law, we are also permitted or required to use or disclose your health information without your consent or authorization in these following circumstances:

- *If we are providing health care services to you based on the orders of another health care provider.
- *If we provide health care services to you in an emergency.
- *If we are required by law to provide care to you and we are unable to obtain your consent after attempting to do so.
- *If there are substantial barriers to communicating with you, but in our professional judgment we believe that you intend for us to provide care.
- *If we are ordered by the courts or another appropriate agency.

Any use or disclosure of your protected health information, other than as outlined above, will only be made upon your written authorization.

We normally provide information about your health to you in person at the time you receive chiropractic care from us. We may also mail information to you regarding your health care or about the status of your account. If you would like to receive this information at an address other than your home, or if you would like the information in a different form, please advise us in writing as to your preferences.

You have the right to inspect and/or copy your health information for seven years from the date that the record was created or as long as the information remains in our files. In addition, you have the right to request an amendment to your health information. Requests to inspect, copy or amend your health related information should be provided to us in writing.

We are required by law to abide by the terms of this notice while it is in effect. We reserve the right to alter or amend the terms of this privacy notice. If changes are made to our privacy notice, we will notify you in writing as soon as possible following the changes. Any change in our privacy notice will apply for all of your health information in our files.

Information that we use or disclose based on this privacy notice may be subject to re-disclosure by the person to whom we provide the information and may no longer be protected by the federal privacy rules.

If you have a complaint regarding our privacy notice, our privacy practices or any aspect of our privacy activities, you should direct your complaint to: Dr. J. Currier, 4956 Benchmark Centre Dr. Suite B Swansea, IL 62226. If you would like further information about our privacy policies and practices, please contact: Dr. J. Currier at 618-622-9770.

This notice is effective as of _____. This notice, and any alterations or amendment made hereto will expire seven years after the date upon which the record was created. My signature acknowledges that I have received a copy of this notice.
